THE EGO DOESN'T DIE!

Week 4 August 13th - 18th 2018

Seminar with Nigel Hamilton & Himayat Inayati

“In the knowledge of the ego, there is the secret of immortality” Hazrat Inayat Khan

Hazrat Inayat Khan said: “The ego, itself, is never destroyed. It is the one thing that lives, and this is the sign of eternal life.” He also noted: “The ego is divided into three parts, the physical ego, the mental ego, and the spiritual ego. The mental ego covers the spiritual ego, and the physical ego is a cover over the mental ego. The ego indeed is one, but these are the three different aspects of the ego.”

This retreat will be an in-depth exploration of these three aspects of the ego, how each aspect is liberated and then embodied with ever more illuminated transparency within our personal physical and mental worlds – culminating in what in Sufism is called *Akhlak Allah*, manifesting the characteristics of the divine. To this end we will attend to the transformative energetics of the ego found in the physical, emotional, mental and spiritual aspects of our life and Nigel will offer the opportunity to look at some participant's dreams as a way of illustrating this process.

Nigel and Himayat bring a remarkable combination of realization and skill to orientation and facilitation of working with egoic structure and activity while attending to the alchemical transformative process of spiritual awakening and maturation. This retreat will provide you with a deeper understanding of how to most fully participate in your spiritual journey.

For this program a supplement of CHF 85 or € 75 is to be added to the "base price"

Nigel Hamilton

Nigel Hamilton, Ph.D. is a UK representative of the Inayati Order. He is the Director of the Centre for Counselling and Psychotherapy Education and Dream Research Institute (DRI), a Transpersonal Psychotherapy Training Centre and Clinic in London, where he lectures and practices as a Psychotherapist.
